We have a request from FEMA's public affairs office to get video of EPA in the field doing our "thing." They are most interested in us doing water/wastewater facility assessments as well as the Phase 2 inspections of the NPL sites.... I need to put the FEMA person in touch with one of our CICs or someone in external affairs that can coordinate on these visits.... My guess would be that either David Gray or Janie Acevedo-Beauchamp would be the best people to talk to first but, I'm not certain..... any help you can provide is much appreciated.

The contact from FEMA public affairs is Alexis and her number is 678 548 2968
